

Aesthetic Perfection with innovative solutions

SKINNIVERSITY NX

Respected Dr,

As an Academic initiative, Geo Bio has launched SkinnVersity Nx where various topics from the molecular biology of dermatology to laser physics are discussed, and advantages are made accessible to all the prestigious clinicians of Indian dermatology.

Skinnversity Nx offers numerous opportunities to learn through different modules, webinars, workshops & CMEs. It is an innovative forum and a medium conducive to cascade and percolate knowledge and advancements pertaining to various treatment modules among the clinicians who are willing to share and upgrade their professional performance.

Skinnversity Nx would like to take this opportunity to invite you in Workshop/Webinar/CME where you can Learn - Educate - Advance & Develop (LEAD) your expertise on **Mastering the Skin Health.**

WHY GEOBIO?

GeoBio, a leading provider of skincare and healthcare products. When it comes to your well-being, we stand apart from the rest for several compelling reasons.

First and foremost, our commitment to excellence drives us to deliver only the highest quality products that are rigorously tested and clinically proven to be safe and effective. With 14+ years of experience in the industry, our team of dedicated experts continually strives to innovate and bring you cutting-edge solutions for all your skincare and healthcare needs.

We take pride in our customer-centric approach, ensuring personalized care & support for each individual. From luxurious skincare formulations to essential healthcare remedies, our comprehensive range of products is designed to promote your overall health & enhance your natural beauty.

Trust us to be your partner on your journey to better health and well-being. Your satisfaction is our priority, and we look forward to serving you with utmost dedication and integrity. GeoBio aims to facilitate Dermatology, Aesthetic Professionals & Plastic Surgeons for continued valuable contributions to the medical fraternity.

PSORIASIS

ESTAAR

eStaarTM
Solution

Recommended for

- Scalp Psoriasis.
- Pityriasis Capitis.
- Seborrheic Dermatitis.

Ingredients

Coal tar	4.25%.
Salicylic Acid	2%.
Benzalkonium Chloride	0.40% solution.
Milk protein.	
Cococin.	

Clinical studies

- Topical coal tar was found to be efficacious in the treatment of psoriasis in two placebo- controlled trials.
- Coal tar products appear to be therapeutic in psoriasis and AD, are well tolerated with few side effects, and are cost-effective.

Key Features

- Controls Scalp buildup.
- Reliefs Scalp itch.
- Restores moisture and comforts irritated skin.

Application guidelines

- Before applying this medicine, wet the hair and scalp with lukewarm water.
- Apply enough medicine to work up a lather and rub well into the scalp for 5 minutes, then rinse.
- Apply the medicine again and rinse thoroughly.

Ref. Newer trends in the management of psoriasis at difficult to treat locations: Scalp, palmoplantar disease and nails, Sanjeev Handa.

Fortified With Cococin and Milk Protein

Solution

60 ml/ MRP ₹ 339

PSORIASIS

SORALITE SOLUTION

SoraLite™
Solution

Recommended for

- Mild to Moderate Plaque Psoriasis.

Key Features

- Rapidly relieves psoriasis & shortens therapy.
- Minimizes adverse effects of corticosteroids or calcipotriol alone.
- Synergistic effects of SoraLite reduces side effects in psoriasis treatment.

Ingredients

Calcipotriol 0.005% &
Clobetasol propionate 0.05%
(Anhydrous Solution)

Protocol

- As recommended by Physician.

Clinical studies

- Calcipotriol monotherapy: Lower efficacy than corticosteroids, significant skin irritation.
- Combination of calcipotriol and topical corticosteroid: Reduced irritation compared to calcipotriol alone.

Ref: Systematic Review of Comparative Efficacy and Tolerability of Calcipotriol in Treating Chronic Plaque Psoriasis Darren M. Ashcroft, Alain Li Wan Po et al.

Empower the Skin With a Synergistic Combination

Solution

30 ml/ MRP ₹ 609

PSORIASIS

PESKLO

PesκλοTM

Recommended for

- Recalcitrant Corticosteroid Responsive Dermatoses.
- Moderate to Severe Psoriasis.
- Lichen Planus.
- Eczema.

Ingredients

Clobetasol Propionate 0.05%

Clinical studies

- Clinical studies conclude that 0.05% clobetasol propionate ointment is safer and more effective than cryotherapy for treating localized plaque psoriasis. In the study, cryotherapy showed efficacy in 51.4% of patients, while clobetasol propionate 0.05% was effective in 89.2% of patients.

Key Features

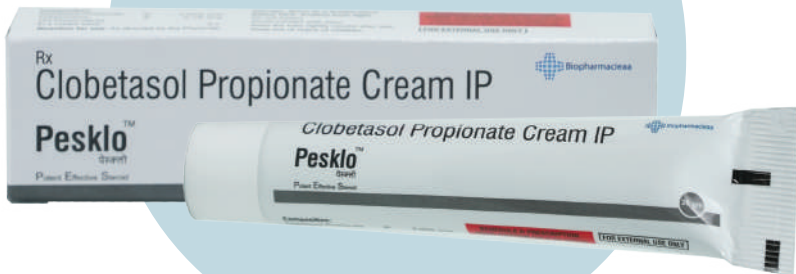

- Potent immunosuppressive capacity.
- Effective- anti-inflammatory, antipruritic, and vasoconstrictive properties.
- Intermittent treatment schedules are feasible due to prolonged remission rates.
- Modulates immune response by controlling type III and type IV hypersensitivity reactions.

Application guidelines

- As recommended by physician.

Ref: Efficacy and safety of cryotherapy and clobetasol propionate ointment (0.05%) in treatment of localized plaque psoriasis: A randomized controlled trial, Farah Sagheer, Mohammad Majid Paracha

Potent Effective Steroid

Cream

30 gm/ MRP ₹ 139

IMMUNITY BOOSTER

CUMAX

CuMaxTM

Recommended for

- Psoriasis.
- Atopic Dermatitis.
- Vitiligo.
- Rosacea.
- Inflammatory Conditions.

Ingredients

CurQlife (Curcuma longa extract)- 300mg
– Curcuminoids in highly bioavailable form due to HLB technology, enhancing solubility and reducing metabolic degradation.

Flaxseed oil (Omega-3&6) - 600mg
L- methyl folate - 100mcg.

Clinical studies

- Reduction of pro-inflammatory molecules & downregulating expression levels of TNF- α , NF- κ B, IL-6, IL-8 & COX-2.
- Improvement in PASI scores with curcumin.

Key Features

- Delivers 50-fold higher free curcumin levels in blood versus unformulated Curcuminoids.
- L-Methyl folate plays a vital role in hyperhomocysteinemia – an independent risk factor in psoriasis conditions.
- Enhances overall immunity & arrests the root cause.

Dosage guidelines

- As a dietary supplement, take 1 or 2 capsules daily on an empty stomach or as recommended by a physician.

Ref: *Dermatological effects of Curcuma species: a systematic review, Barbalho SM 1,3, de Sousa Gonzaga HF 2, de Souza GA 3, de Alvares Goulart R 1, de Sousa Gonzaga ML 2, de Alvarez Rezende B*

ANTI FUNGAL

ITZ BIO SB

SUBA Itraconazole
65mg & 130mg

ITZBIO^{SB}
65mg

ITZBIO^{SB}
130mg

Recommended for

Chronic recalcitrant endemic & systemic dermatophytosis

- Blastomycosis
- Aspergillosis
- Histoplasmosis
- Candidiasis
- Onychomycosis

Ingredients

Itraconazole 65mg & 130mg

Key Features

- Delivers approx. 2x the bioavailability of conventional itraconazole.
- Spray-drying/double drying technology to enhance solubility and bioavailability.
- Soluble in the higher pH of the small intestine, resulting in improved absorption.

Application guidelines

- As directed by Physician.

Clinical studies

- SUBA Itz has a relative bioavailability of 180% compared to conventional & absolute bioavailability upto 90%.
- 65 mg capsules achieve bioequivalence to a 100 mg capsule of conventional Itraconazole with fewer adverse effects.

Ref: Bioavailability of Single-Dose SUBA-Itraconazole Compared to Conventional Itraconazole under Fasted and Fed Conditions, Adriana M Rauseo, Patrick Mazi, Phoebe Lewis, Bruce Burnett, Stuart Mudge, Andrej Spec

HEALTH TO HAIR

ROOT-IN 2.5 mg

Root In 2.5TM
Minoxidil 2.5 mg Tablets

Recommended for

- Male Patterned Hair Loss (MPHL).
- Female Patterned Hair Loss (FPHL).
- Telogen effluvium.

Ingredients

Minoxidil 2.5 mg

Clinical studies

- Total hair density & terminal hair density improved after 24 weeks in the frontal region.
- Oral minoxidil (0.25-5 mg) results in minimal blood pressure changes compared to the normal fluctuations experienced in daily life.

Selection Criteria

- Prefer young patients (Aged 30-40), for elderly patients regular monitoring is recommended.
- Patients having a healthy routine is a plus.
- Avoid men with excessive body hair.
- Avoid in patients with a history of Tachycardia, Rhythm Disturbances, or reported previous Cardiac Events.

Dosage guidelines

- Root In Tablet is available in 2.5 mg (scored).
- Depending upon the selection criteria.

Side Effects

- Hypertrichosis.
- Pedal Edema.

*Ref: *Safety of low-dose oral minoxidil for hair loss: a multicenter study of 1404 patients. S. Vano-Galvan, R. Pirez, A. Hermosa-Gelbard, O.M. Moreno-Arrones, D. Saceda-Corralo, et al.*

Low Dose Oral Minoxidil for Hair Loss Management

Tablets 1 X 10

MRP ₹ 78

HEALTH TO HAIR

ROOT-IN

ROOT-IN™
In Androgenetic Alopecia

Recommended for

Male Pattern Hair Loss
(Grades 1,2,3&4).
Female Pattern Hair Loss
(Grade 1&2).
Telogen Effluvium.

Key Features

- Comprehensive Treatment.
- Triggers Hair Growth.
- Redensifies Hair Follicle.
- Amends Hair Anchorage.
- Offers Protective and Repair Benefits.
- No dryness.

Ingredients

Minoxidil 5%.
Biotinoyl Tripeptide-1.
Apigenin.
Oleanolic Acid.

Dosage guidelines

- The typical starting dosage for topical minoxidil is **1 ml** applied twice daily, but follow your doctor's or product instructions for specific guidance.

Clinical studies

In a 1-year study of 904 males with AGA, using topical minoxidil 5% twice daily:

- 62% of the patients exhibited a significant decrease in the affected region of the scalp.
- 84.3% of patients reported hair regrowth of varying degrees.

Ref: Treatment options for androgenetic alopecia: Efficacy, side effects, compliance, financial considerations, and ethics, Mark S. Nestor, MD, PhD, corresponding author, Glynis Ablon, MD, Anita Gade, DO, Haowei Han, DO, and Daniel L. Fischer, DO, MA

HEALTH TO HAIR

ROOT-IN F

ROOT-IN F™
In Androgenetic Alopecia

Recommended for

- Male Pattern Hair Loss (Grades 1,2,3&4).
- Female Pattern Hair Loss (Grade 1&2).
- Telogen Effluvium.

Ingredients

Minoxidil 5%.
Finasteride 0.1%.
Biotinoyl Tripeptide-1.
Apigenin.
Oleanolic Acid.

Clinical studies

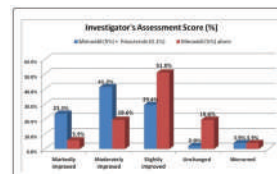

Greater improvement (Slightly increased, Moderately increased, and Greatly increased) in global photographic assessment for hair growth score as compared to those treated with Minoxidil alone.

Key Features

- Comprehensive Treatment.
- Triggers Hair Growth up to 12%.
- Redensifies Hair Follicle.
- Abates Hair Loss by 58%.
- Amends Hair Anchorage.
- Offers Protective and Repair Benefits.
- No dryness.

Dosage guidelines

- The typical starting dosage for topical minoxidil is **1 ml** applied twice daily, but follow your doctor's or product instructions for specific guidance.

Minoxidil- Finasteride Synergy for Hair Growth

Serum

60 ml/ MRP ₹ 899

Health To Hair

CERATINA

Recommended for

- For Androgenetic Alopecia (MPHL & FPHL).
- Hair loss conditions.
- Stimulating hair growth.

Ingredients

Beta-Sitosterol.
Omega 3&6 Fatty acids.
Soy Isoflavones.
Melatonin.
Green Tea Extracts
Vitamin D.

Clinical studies

- A pilot study of men and women with Androgenic Alopecia showed a modest, statistically significant improvement in several efficacy measures of hair regrowth after 24 weeks of supplementation with Ceratina.

Key Features

- Supports stimulation of hair growth.
- Supports in the prevention of hair loss.
- Nutritional support to help block DHT.
- Delivers key antioxidants.
- Supplies anti-inflammatory benefits.

Protocol/Dosage guidelines

- As a dietary supplement, take 1 or 2 capsules daily at bedtime (for 24 weeks) or as recommended by a physician.

Ref: An Open-Label Evaluator Blinded Study of the Efficacy and Safety of a New Nutritional Supplement in Androgenetic Alopecia: A Pilot Study, Anna J. Nichols, MD, PhD, Olivia Bosshardt Hughes, BS, Agnese Canazza, and Martin N. Zaia, MD

MRP ₹ 290

PIGMENTATION

MELA-ACT FORTE

MELA - ACTTM
FORTE

Recommended for

- Pigmentary skin conditions like melasma, dark spots and PIH.
- Photoaging.

Ingredients

Tranexamic acid
Kojic acid dipalmitate
Arbutin
Niacinamide
Mulberry extract & Rumex occidentalis extract
Tocopheryl acetate
Tetrahydro curcumin
Panthenol
Ehylhexyl methoxycinnamate & Titanium dioxide

Clinical studies

- It was demonstrated that THC could effectively inhibit the α -MSH (melanocyte-stimulating hormone) induced melanin production and the expressions of three key enzymes involved with the biosynthetic process of melanin, tyrosinase (TYR), TRP-1, and TRP-2, were all significantly reduced.

Key Features

- Targets hyperpigmentation, uneven patches and dark spots.
- Evens out the skin tone.
- Reduces skin complexion dullness. Soothes and calm the skin to
- prevent redness and irritation.

Application guidelines

- Use in the evening as the final step in your skincare routine, post-cleansing .
- Apply a pearl-sized amount to face and neck, massage in, and leave on overnight for optimal absorption.
- Apply SPF 50 during the day to prevent hyperpigmentation and photosensitivity rebound.

Ref: Anti-Melanogenic Mechanism of Tetrahydro curcumin and Enhancing Its Topical Delivery Efficacy Using a Lecithin-Based Nano emulsion, Xudong Tang, Qiaoru Dong, Jun Li, ang Li, Bozena B. Michniak-Kohn, Denggao Zhao, Chi-Tang Ho, and Qingrong Huang

NEW UPGRADED FORMULATION FOR DERMAL-EPIDERMAL PIGMENTATION

Cream

20 gms/ MRP ₹ 459

PIGMENTATION

MELA-ACT

MELA - ACT™

Recommended for

- Melasma.
- Post Inflammatory hyperpigmentation.
- UV-induced hyperpigmentation.

Key Features

- Helps to lighten Dark spots, Hyperpigmentation, uneven Skin Tone.
- Provides a more uniform skin tone by reducing discolouration.

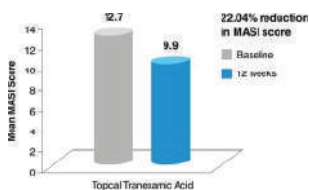

Ingredients

Tranexamic acid.
Kojic acid.
Mulberry extract.
Arbutin.

Application guidelines

- Once or twice daily can be used or as recommended by the Dermatologist.
- Use after the Mela Act Forte as maintenance.

Clinical studies

Ref: Mechanism of Action of Topical Tranexamic Acid in the Treatment of Melasma and Sun-Induced Skin Hyperpigmentation by Kazuhisa Maeda.

Maintenance is Better than Recurrence in Cases of Epidermal Hyperpigmentation

Cream

15 gms/ MRP ₹ 269

PIGMENTATION

AZELITE

Azelite
Azelaic Acid | Niacinamide | Arbutin | HPPA

Recommended for

- Acne & Rosacea.
- Premature Aging.
- Hyperpigmentation & Dark spots.
- Lightens Age spots & Freckles.

Ingredients

Azelaic acid - 10%
Arbutin - 2%
Niacinamide - 3%
Tazman pepper & Zinc PCA
Probiotics & Kakadu plum
Hydroxy propanoic acid aka Lactic acid

Clinical studies

- Patients with oily skin experienced greater efficacy when using azelaic acid formulated with alcohol.

Key Features

- Calms Visible Redness & Soothes inflammation.
- Targets uneven tone & texture.
- Probiotics help in maintaining the skin's natural barrier.
- Maintains normal skin pH around 4.0 to 5.0.
- Fragrance-free, Paraben free, & Silicone free.

Application guidelines

- Patch test for sensitive skin is recommended.
- Patients having dry skin must use a good moisturizer along with the serum.
- Sunscreen with a good SPF is recommended for enhanced results.

Ref. 'Effat Khodaeinai, 'Shahla Babaeinejad , Et al. Efficacy of 10% Azelaic Acid Gel with Hydro-alcoholic or Alcohol-free Bases in Mild to Moderate Acne Vulgaris; the First Clinical Trial, J. Med. Sci., 14 (2): 87-91 15th February, 2014.

The Comprehensive Management for Breakouts & Blemishes!

Cream

ANTI AGEING

AGERET

Unlock the potential of encapsulated retinol

Recommended for

- Enhance skin tone, texture & resiliency.
- Improve appearance of wrinkles.
- Diminishes brown spots.
- Regeneration & hydration of skin.
- Enhanced skin health.

Ingredients

4% Active Encapsulated Retinol-

Formulated using Spherulite Technology.
SK Influx.

Perfection Peptide

(Hexanoyl dipeptide-3 norleucine acetate).

Hyaluronic Acid.

Resveratrol.

Vectorized vitamins A, C & E.

Caffeine & Arginine.

Clinical studies

- Gradual time release of active ingredients over time.
- Carrier system to protect its integrity.
- Improved ability to penetrate the skin.

Key Features

- Non-Ionic spherulite can deliver actives into deeper layers of skin.
- Improves the appearance of wrinkles.
- Diminishes brown spots and gives skin a healthy glow.
- Maximized regeneration and hydration of the skin.

Application guidelines

- Apply 2-3 drops on clean skin once every 2-3 days.
- Use at night time only to avoid irritation.
- Allow 30-60 days for full effects or follow the physician's instructions.
- Remember to apply a non-comedogenic moisturiser and physical sunscreen daily.

Active Encapsulated Retinol with Peptide & Ceramide Repair System

Serum

20 ml/ MRP ₹ 799

ACNE

SEBOSAL

Sebosal Facewash

Recommended for

- Oily and Acne prone skin.

Ingredients

- Patented seboregulator – **Sepicontrol A5**
- Boosts immune defense by increasing the levels of HBD-2.
- Reduces inflammation by reducing IL-a levels.
- Controls hyperkeratinization by reducing filaggrin levels.
- **Salicylic Acid**
- **Zinc PCA**
- **Aloe Vera**

Clinical studies

- Reduced number of comedones - 78%
- Reduced skin lipids - 20%
- **SEPICONTROL A5** presents excellent anti-5 a-reductase

Key Features

- Cleanses & gently exfoliates the skin without causing dryness.
- Controls P.acne.
- Prevents Acne Breakouts.
- It is free from harmful ingredients like sulphates, parabens, phthalates, etc.

Application guidelines

- Take a small amount of Sebosal facewash on your palms.
- Rub it gently on your face & allow it to stay for a minute.
- Cleanse it with water.
- Avoid contact with eyes.

Ref: A double-blind, placebo-controlled evaluation of a 2% salicylic acid cleanser for improvement of acne vulgaris, JAAD.

Acne Management with Zero Dryness Cleanser

Face Wash

150 ml / MRP ₹ 389

ACNE

SEBLOK

Recommended for

- Nodulocystic Acne.
- Unresponsive Mild Inflammatory Scarring.
- Lamellar Ichthyosis.

Ingredients

- Isotretinoin - 5, 10, 20 mg

Clinical studies

- Isotretinoin shows significant efficacy in treating acne by inhibiting sebaceous gland size and function, and low-dose regimens are comparable in effectiveness to high-dose regimens with fewer side effects.

Key Features

- Seblok treats severe acne that is resistant to other forms of treatment like antibiotics & topical treatment.
- Achieves remarkable efficacy by influencing cell cycle progression, cellular differentiation, cell survival & apoptosis.

Dosage guidelines-

The dosage is based on the severity of the condition, weight, and response to treatment or as directed by the physician.

Gentle precautions-

- Isotretinoin can cause birth defects (systemic retinoids)
- Drug interactions can alter medication effectiveness and increase the risk of serious side effects.

*Ref: *Isotretinoin versus placebo in the treatment of cystic acne. A randomized double-blind study G L Peck, T G Olsen, D Butkus, M Pandya, J Arnaud-Battandier, E G Gross, D B Windhorst, J Cheripko*

ANTI ALLERGIC

LONGY

LONGYTM

Recommended for

- Allergic rhinitis and uncomplicated cases of chronic idiopathic urticaria.

Key Features

- Potent, long-lasting treatment for Chronic Idiopathic Urticaria.
- Higher efficacy and safety compared to Cetirizine.
- Superior to other antihistamines in blocking histamine response.

Ingredients

Levocetirizine hydrochloride - 5mg

Application guidelines

As recommended by physician.

Clinical studies

Levocetirizine exhibits anti-inflammatory and anti-allergic effects within the plasma concentration range of 10-500 nM, which includes its typical concentration (- 400nM) during a standard 5 mg dose treatment.

Ref: Once daily levocetirizine for the treatment of allergic rhinitis and chronic idiopathic urticaria E Nettis, G F Calogiuri, E Di Leo, F Cardinale, L Macchia, A Ferrannini, and A Vacca

SUN PROTECTION

BIOUV SPRAY SPF 50

Recommended for

- Sun protection against UVA, UVB & HEVL induced photoaging.

Ingredients

SunCat MTA,
Titanium dioxide & Aluminium hydroxide,
Hydration complex,
Bifidobacterium lysate (Probiotic),
Physavie®,
Niacinamide

Clinical studies

Physalis angulate extract reduces levels of proinflammatory cytokines (IL1-alfa, TNF-alfa, IL-4, IL6-alfa, IFN-γ), inflammation mediators and related enzymes (PGE2, LTB4, PA2, LOX and COX-2)

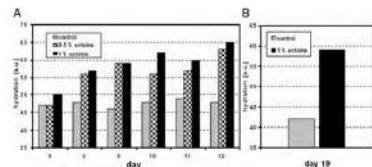

Key Features

- Benzophenone free.
- Broad spectrum.
- For Face, Body & Hair.
- No white cast.
- Lightweight and Rapid absorption.
- DNA Auto Repair Complex.
- Light weight & Invisible protection.

Application guidelines

- Shake well before use.
- Hold the nozzle close to your skin.
- Spray it generously.
- Rub it thoroughly.
- Re-apply every 2 to 3 hours.

Ref: Effect of Physalis angulata leaf extract cream on Interleukin-4, Interleukin-6, and Immunoglobulin-E in mice with induced atopic dermatitis, Dhany Prafita Ekasari

spf

Recommended for

- Photoprotection.
- Post-procedure protection.
- Skin brightening.

Ingredients

Zinc Oxide and Titanium dioxide
Tranexamic acid
Watermelon extract
Hyaluronic acid
SENSICARE® C
Vitamin E

Key Features

- Benzophenone free.
- 4 in 1 multi-tasking formula.
- Looks tinted but spreads on easily to a translucent finish.
- SENSICARE® C active against bacteria, yeast & fungi.
- PA+++.
- Water resistant & sweat resistant.
- Non-comedogenic & dermatologically tested.

Application guidelines

-Apply a thick layer on cleansed, dry skin & rub well.
-Reapply 20 minutes before sun exposure and after being in the water.
-Reapply SPF every 80 minutes while in the sun.

Photoprotection with Instant Brightening Effect

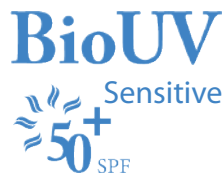

Sunscreen

50 gms | MRP ₹ 689

SUN PROTECTION

BIOUV SENSITIVE

SPF 50+

Recommended for

- For sensitive and intolerant skin.
- Photoprotection.
- Post-procedure protection.
- Skin brightening.

Key Features

- Benzophenone free.
- Sunscreen exclusive for sensitive skin.
- Physical non-tinted sunscreen.
- Non-comedogenic.
- Fragrance-free & Hypoallergenic.
- Non-greasy & water resistant.

Ingredients

Zinc Oxide and Titanium dioxide
Squalene
Pentapeptide-59
Shea butter
Non-Nano zinc oxide - 22%
Non-nano titanium dioxide - 6%
St. John's wort oil

Application guidelines

- Apply to exposed skin, avoiding contact with eyes.
- Re-apply every two hours and 15-30 minutes before going outside.

Clinical studies

Pentapeptide-59 is a biomimetic peptide that is based on a sea anemone protein which calms sensitive skin and reduces skin irritation. Pentapeptide-59 visibly diminishes skin sensitization, reducing redness and neutralizing signals in the upper skin layers, effectively minimizing sensitivity.

Ref: Analgesic Compound from Sea Anemone Heteractis crispa Is the First Polypeptide Inhibitor of Vanilloid Receptor 1 (TRPV1)

- Photoaging.
- Photodermatitis.
- Suntan.

Ingredients

Iron Oxide 3% - Iron oxide sunscreens offer HEVL protection and aids in treating melasma & hyperpigmentation in dark skin.

Zinc Oxide 6%,

Titanium Dioxide 5%

Rice bran & Sunflower extract
Bisabolol

Clinical studies

- Greatest attenuation at shorter wavelengths-
Iron oxide sunscreens provide -
PF-VIS values > 3 and
PPF values > 7,

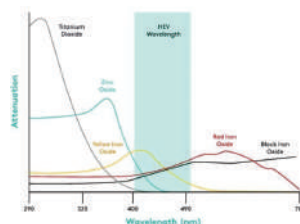

While those without iron oxide offer
PF-VIS values < 2 and
PPF values < 5.

Key Features

- Ensures protection against HEVL and UVA-UVB.
- Lightweight, Long-lasting,
- Non-comedogenic, and Hypoallergenic.
- Free from Paraben, Sulphates, Phthalates, Petroleum Oils, Benzophenone and GMOs.
- Soft Peach Tinted Matte finish.
- Reduce signs of Photodamaged skin.

Tinted Sunscreen Lotion

Sunscreen

50 gm/ MRP ₹ 569

ANTI AGEING

NIAA

Recommended for

- Pigmentation.
- Acne.
- Dark Spots.
- Reduce Blemishes.

Key Features

- 10x more absorption than regular water-based serums.
- Potent depigmenting and skin soothing action.
- Protects cells from UV induced sun damage.
- Minimizes acne by reducing sebum secretion.
- Helps relieve premature ageing from
- Preservation of skin barrier effectively with Probiotics.

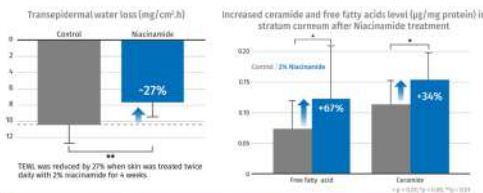

Ingredients

Niacinamide -	10%
Hyaluronic Acid –	1%
Tetrapeptide-	30
Probiotics	
Zinc PCA	
N-Butyl resorcinol	
Purslane Extract	
Centella Asiatica	

Application guidelines

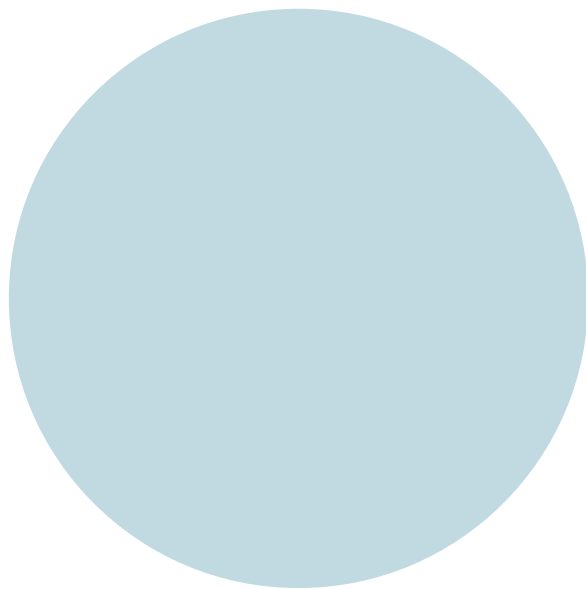

- Wash your face with a gentle cleanser & pat it dry.
- Apply few drops of Niaa serum to your skin.
- Massage evenly on your face & neck.
- Use moisturizer & sunscreen post applying serum.
- Avoid Contact with Eyes.

Clinical studies

Niacinamide PC helps to keep hydrated and normalize the skin by balancing ceramide and fatty acids in Stratum Corneum

Transform your skin story: The power of Niacinamide, Peptides, & Probiotics

CUTAM PALM & SOLE

CUTAM™
Palm & Sole

Recommended for

- Dry and Cracked Feet.
- Dry and Chapped Hands.
- Callused Skin Areas.
- Eczema.

Ingredients

Urea 20%
SK Influx
Lipids
Veg Lanolin

Clinical studies

- SK Influx enhances ceramide bioavailability, while urea improves the skin barrier and moisture content.

Key Features

- Effective repair with urea based formula fortified with ceramides & other essentials.
- Beneficial for very rough and dry patches of skin.
- Strengthens the skin's natural moisture barrier, and deeply hydrate the skin.

Application guidelines

- Apply uniformly all over the Palm & Sole.
- Use daily for best results.

Ref: *Urea in Dermatology: A Review of its Emollient, Moisturizing, Keratolytic, Skin Barrier Enhancing and Antimicrobial Properties*, Jaime Piquero-Casals, Daniel Morgado-Carrasco, Corinne Granger, 3 Carles Trullàs, América Jesús-Silva, and Jean Krutmann
